

Joining a WebEx Meeting

You do not need to download the WebEx software to take part in a WebEx online meeting. Simply click the link you have been provided and follow the instructions below. We recommend to join the meeting 5 minutes early to avoid technical difficulties and testing if your computer has the needed plugins to join a meeting. To test your computer, please click on the following link: <http://www.webex.com/test-meeting.html>, it will take you to a test website.

To join the meeting:

1. Click the Start button in your email invitation.
2. Enter you name and email address and click the Join button

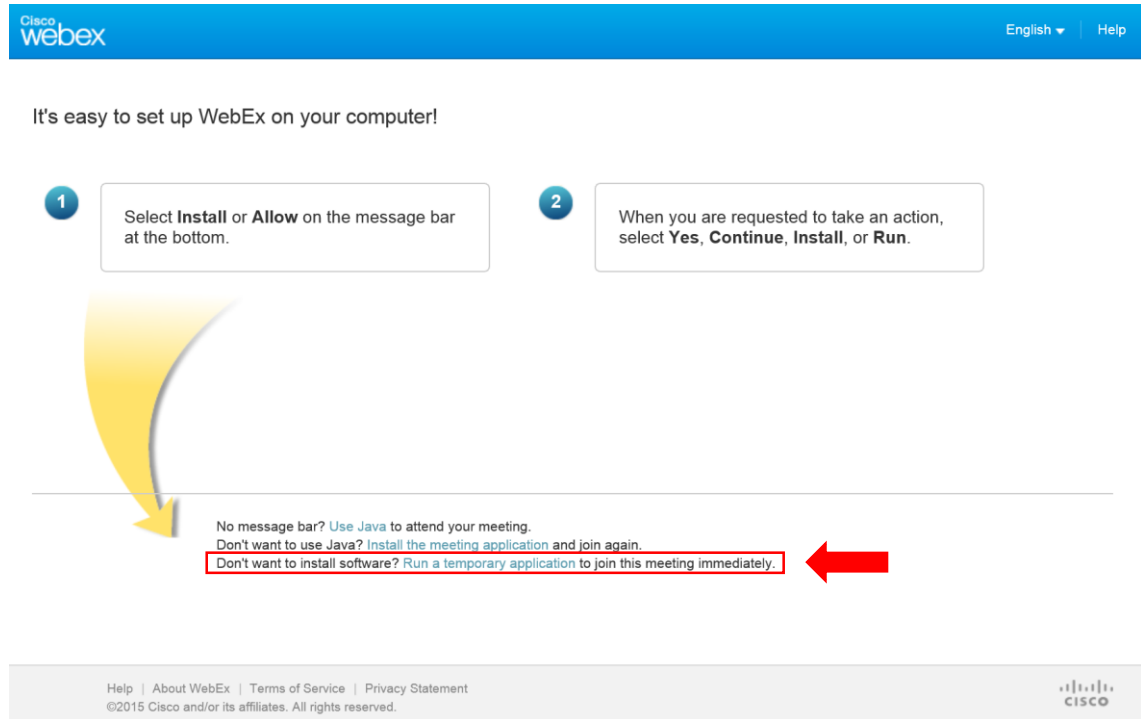

The screenshot shows the Cisco WebEx interface for a meeting titled "DEOS Controls WebEx Meeting". The meeting details are as follows:

When:	Today, 2:30 pm (1 hr) San Francisco (Pacific Daylight Time, GMT-07:00)
Where:	WebEx Online
Host:	Henrik Plueth

Below the details is a "More information" link. To the right, a red box highlights the "Join" section, which includes the text "It's time to join.", input fields for "Your Display Name:" and "Email Address:", and a green "Join" button. Below this is a link to "Sign in and join for a personalized meeting experience." for users with accounts.

At the bottom left, there is a "Sign in" button and text: "Sign in to see more meeting details. Don't have a WebEx account? Sign up for free." The footer contains the Cisco logo and copyright information: "©2015 Cisco and/or its affiliates. All rights reserved."

3. Choose “Run a temporary application” at the bottom of the website, if you have not installed WebEx yet and do not wish to. You should see a new window.

4. For calling in to the meeting we recommend using your computer's audio system (VoIP) and webcam.
